---

As a result of initial discussions, the Select Board invites the Woods Pond shore line property owners and adjacent property owners to a special public meeting scheduled for Thursday, July 29, 2010 at 6:00 PM at the Town Office Complex. The key topic of discussion will be the current concerns for the Woods Pond water level and related water issues.

The meeting will begin with a brief overview by Peter Lowell, Executive Director of Lakes Environmental Association regarding specifics about Woods Pond and its watershed. Public comments will be extremely important allowing the Select Board and interested citizens to craft a thoughtful approach as well as the possibility of organizing a Woods Pond Water Level Committee that may follow through with any strategy, plans and pond level controls necessary.

The meeting will be facilitated to assure all persons are given an opportunity to speak. Written comments will also be accepted for those who do not want to speak or may not be able to attend this meeting.

This is a public meeting and is open to the public. We hope to see you there.

For the Bridgton Select Board
